WORK EXPERIENCE

Mozark   **Dubai**
Product Support/ Software Development Intern   *June 2024 to Aug 2024*
- Performed sentiment analysis by developing scripts in Python by extracting data from sources like the Play Store, App Store and Twitter for clients including Amazon, Instagram, WhatsApp, and Twitter.
- Spearheaded the creation of detailed training and consulting documentation to strengthen the sales team's ability to competitively sell company offerings - resulting in a 2% improvement in sales.
- Manipulated large datasets in Excel for 2000+ reviews for all professional firm clients, presenting easily digestible findings to senior leadership and shareholders.
- Implemented improvements for pre-made scripts used by the product team to improve efficiency.

Growwbox   **Dubai**
Software Development Intern   *June 2022 to July 2022*
- Collaborated with the development team to assist in a Flutter based app that provided consumers with new positive affirmation categories with respect to different aspects of an individual's life.
- Developed an additional feature for the app where users could login, resulting in the users to save their favorite affirmation.
- Added an extra category relating to the topic of Earth by working and manipulating JSON files and writing extra code.
- Performed extensive research to find things that frequent users wanted from the app and implemented those extra features by working with the programming language Dart.

Cascade Coaching Center   **Dubai**
Volunteer   *April 2022 to June 2022*
- Taught 10 kids of the ages of 5-13 years old learn the basics of programming ex. Scratch and Python.
- Helped kids with their school work.

EDUCATION

Cambridge International School   **Dubai**
High School Diploma   *Class of 2025*
- Relevant Coursework: Computer Science, Pure Mathematics, Probability and Statistics, Mechanics, Physics, Chemistry, English, Information Technology
